REPLACE SCREW-LOCK SPHERICAL NOZZLES WITH LOC-LINE®

■ These new Loc-Line® adapters replace screw-lock spherical coolant nozzles found on most metal lathe machining equipment.

■ Allows the use of all Loc-Line® 1/4" Nozzles for improved coolant flow.

■ Now, with the addition of Loc-Line® hose and the option of using a long or short adapter coolant can easily be directed beyond lathe drill and collet chucks.

■ The new Lathe Kits include parts to build an entire coolant hose system that adds adjustable and lockable positioning with increased coolant pressure.*

*Assumes use of Element Clamps on all joints and clamps fully tightened.

Loc-Line® is manufactured by:
